User Documentation for Simply Rugby

1. Introduction

Simply Rugby is a prototype application designed to assist in managing teams, players, and coaches. The system focuses on basic functionalities that can be expanded in the future. Furthermore, it is created to be quick and intuitive to use, without requiring any above average knowledge of computer use.

2. System Requirements

Simply Rugby prototype System meets the following requirements:

- **Operating System:** Windows 10 or later / macOS 10.13+
- **RAM:** Minimum 4GB (Recommended: 8GB+)
- **Disk Space:** At least 200MB of free space
- **Java:** JDK 17 or higher installed
- **Screen Resolution:** Minimum 1280x720

3. Launch Instructions

To run an application, follow these steps:

- ✓ Ensure Java is installed on your machine.
- ✓ Download or extract the application files.
- ✓ Double-click on application logo on desktop to run.
- ✓ The login window will appear. You can log in with your credentials.

4. Login Information

To log in, enter your username and password provided by the Company, Simply Rugby, then click Login.

If your credentials are correct, you'll be redirected to the Main Menu.

5. Main Features Overview (Step by Step)

The user interface on the Main menu is divided into four buttons, each offering different functions:

- **Active Coaches** - displays all active coaches.
- **Teams in Club** - shows all active teams.
- **Settings** - not implemented yet.
- **My Teams** - displays a list of teams assigned to the currently logged-in coach.
- **Exit button** – To turn off the application.

The user interface on the My Teams shows:

- Display active assigned team to coach.
- Button to go back to main menu.

The user interface on the Player Squad screen provides:

- Information about which team we are currently working on.
- Information about which account we are currently logged into.
- Ability to select a player who belongs to the team to modify their training parameters.
- Button to save changes
- Option to exit the application with the ability to save all changes made to the tables
- Option to return to the main menu

6. FAQ – Frequently Asked Questions

Question 1: Can I change my password?

Answer: This option is not available in the prototype yet. Contact with technical Support

Question 2: Can I register new account?

Answer: Registration is not possible in the prototype at this stage.

Question 3: Can I log in to teams that are not assigned to me?

Answer: This is not possible. Each coach can only operate on their assigned teams.

Question 4: What happens if I change training parameters but don't save them?

Answer: The application does not save automatically, so no changes will be saved unless the "Save Skill" button is clicked or the program is closed and you confirm "Save all changes" in the exit window.

Question 5: Can I delete players, teams, or my own account?

Answer: This option is not available at the moment.

7. Contact for Technical Support & Online Help Features

For help, contact our support team:

- **Email:** kmilej@outsourcing.com
- **Phone:** +44 1234 567888
- **Online Help:** Help button in application will be provided soon.
